

Security Awareness Training Report for Amber Kelly

Timestamp	Script Type	User Response	AI Feedback
2025-04-02 15:36:18	custom	hello	Hello Amber, this is Michael Sullivan from the IT department. We're currently updating our payroll system software, and I need to verify a few things with you to ensure your access is transitioned smoothly. Are you available to help with this right now?
2025-04-02 15:36:30	custom	Yeah, I'm available.	Great, thank you, Amber. First, can you confirm if you are currently logged into the payroll system? We need to check the active status from our end to match it with the update schedule.
2025-04-02 15:36:51	custom	Just give me a second, I'll log in now.	Thanks, Amber. Once you're logged in, can you also verify which version of the software you are currently using? We want to ensure that it aligns with the version we're planning to update to. You should be able to see the software version on the homepage or under 'About' in the system settings.
