Security Awareness Training Report for Anita Grant

Timestamp	Script Type	User Response	AI Feedback
2025-04-02 16:49:42	custom	Hello	Hello Anita, this is Michael from the IT department. We're currently rolling out a security update to our systems, and I need to verify a few details to ensure your account is included properly. Can you confirm the software version you are currently using for processing our receipts and customer transactions? It's important to ensure compatibility and safeguard your access during the update.
2025-04-02 16:50:02	custom	Yeah sure, which software are you talking about?	Ah, I'm referring to the Accounts Receivable software you use for processing transactions and customer ledgers. We've noted a few inconsistencies in software versions in different departments and want to make sure everyone is updated to prevent any data issues. Could you let me know the version you're currently on?
